EVENT APP

One platform for colleges to plan and run their fests: teams, money, registrations, sponsors and the event day itself, from the first meeting to the closing report.

Everything the app does

Chips show where to find each feature. NEW marks the latest additions.

Access & control

- One fixed Super Admin with control over everything; shown to others as “Contact Admin”
- Roles: College Admin, Event Admin, department heads, assistants, members, viewers
- Editable permission matrix; department roles only work inside their department
- Invitation-only sign-up, resend invitations, suspend and reactivate accounts
- Delete an account and invite the same person again as a brand-new user NEW
- Super Admin can delete participants (finance ledger always kept) NEW

Colleges & events

- Many colleges, each with its own events, admins and branding
- Create, edit, archive, restore and delete events (money records always kept)
- Cancel and restore events and competitions; delete unused competitions NEW
- Super Admin dashboard of everything other admins cancelled or deleted, with a Clear button NEW
- Event lifecycle from planning to completed, with logo and banner
- Copy last year's event as a new edition with dates moved NEW

- Per-person access page: grant or remove college, event and department roles
- Replace an admin in one step, or remove all of a person's access at once NEW
- Two-step sign-in with an authenticator app NEW
- Activity feed and full data-change audit across every college

`Users` `Permissions` `Activity & audit`

- Dashboards for Super Admin, College Admins and each event

`College → Home` `Event → Settings`

Departments & team

- 18 ready departments per event (Finance, Media, Registration, Security…)
- Heads, assistant heads and members with appointment history
- Assign existing users or invite new people by email
- Department workspace: team, tasks, budget, announcements, progress
- Add, edit, archive and delete departments
- Co-head position alongside the head; Super Admin can revoke or delete any role NEW
- Department access: heads see only their own department; College Admins give access to more NEW

`Event → Departments` `Event → Team`

Registrations & entry

- Registration dashboard, participant list, offline desk, cancellations, refunds
- Competitions with fees, team sizes and capacity
- Website API with keys, sandbox mode and rate limits
- Public registration page; no college website needed NEW
- QR ticket for every participant, printable and emailed NEW
- Gate check-in with the phone camera and live arrival count NEW

`Event → Registrations`

`Event → Check-in` `/e/college/event`

Finance

- Append-only ledger: income, expenses, refunds, reversals
- Expense requests with review, approval limits and payments
- Total budget, department allocations, 75 / 90 / 100% alerts
- Budget revision requests and decisions
- Live figures: income, expenditure, approved unpaid, cash position

Sponsorship

- Sponsor CRM and deal pipeline board
- 10 ready sponsorship packages, editable
- Sponsor payments verified by finance into the ledger
- Deliverables tracking (logo placements, stalls, mentions)

`Event → Sponsorship`

Event → Finance

Operations

- Tasks as board, list or calendar, with subtasks, comments and reminders
- Media & PR assets, marketing campaigns and their results
- Venues, vendors, inventory, emergency contacts
- Master event-day schedule
- Volunteer duty roster with self check-in and no-show count NEW

Tasks · Operations · Schedule · Duty roster

Competitions & awards

- Judging criteria with maximum scores and weights NEW
- Judges score entrants on phone or laptop; live leaderboard
- Publish winners; results appear on the public event page
- Participation and winner certificates as PDFs NEW
- QR on every certificate so anyone can verify it

Event → Judging · Event → Certificates

Communication

- Announcements for everyone, a college, an event or a department
- Notification centre with live updates
- Push notifications on phones and computers NEW
- Private documents with secure links, attached to expenses, deals and tasks
- Personal calendar feed for Google, Apple and Outlook NEW
- Feedback surveys with a recommendation score NEW

Announcements · Documents · Feedback · Profile

Reports & closing

- 12 reports: summary, registrations, payments, income, expenses, budget, sponsorship, departments, tasks, marketing, participants, closing
- Filter by date, department, category and status
- Export to CSV, Excel and PDF
- Cross-college reports for the Super Admin and College Admins
- Closing checklist, frozen final figures, financial close and reopen

Event → Reports · Reports · Event → Closing

Security & platform

- Database-level access rules on every table; no cross-college data leaks
- Sensitive actions checked in the database, not only in the app

- Content-Security-Policy, HTTPS-only headers, rate-limited public forms
- Installable app with offline page; light and dark mode
- Built on Next.js, Supabase and Vercel; free tiers for a college project

`Account menu → Install app`

Payments. Paid registrations are settled at the registration desk and recorded by staff. Online payment (Razorpay) is built in but switched off.

Emails. Invitations and password resets use Gmail. Tickets, certificates and survey links use the same account once its settings are added in Vercel.

Phones. On iPhone and iPad, add the app to the Home Screen to install it and to receive notifications.
